PRODUCT GUIDE

PACKED WITH OUR LATEST AND
GREATEST TACKLE!

LUGGAGE & BARROWS

Last year saw us launch a brand new, top-end range of luggage under the Voyager banner and over the past twelve months this has become incredibly popular. Due to the quality of the range, it carries with it, prices that not all anglers can afford or justify. We felt it appropriate therefore, to design and launch a new, lower-cost range for 2019. Our team of product designers chose to discontinue the long-standing Royale range and replace it with the improved R-Series. It's fair to say that the team have excelled themselves. They've not only managed to better the Royale luggage, but have achieved, on average, a 20% price reduction across the new range!

In addition to the new R-Series and Voyager luggage, you'll also find our market-leading Camolite range in this section, which continues to grow in popularity year on year. Fans of Camolite will be pleased to see the new additions. We also have some great neoprene luggage items in our Fox Camo pattern for you!

This section not only covers luggage, but also showcases our impressive range of barrows. Our product development team understand just how important it is to be able to transport tackle to and from your swim with comfort and ease. They also appreciate how crucial mobility is and have worked on designs to enable anglers to fish 'off the barrow'.

NEW

BARROWS

EXPLORER® BARROW DELUXE

- Based on same unique design as original Explorer barrow but with some added extras!
- Designed to allow anglers to fish 'off of the barrow' making it ideal for short-session anglers that like to keep mobile, but also equally as good for anglers that need to carry those essential extras
- Main differences to standard Explorer: longer ergonomically-shaped, removable handles, wider compartments and mesh pockets either side of wheel for storing essentials such as water bottle, adjustable height on front barrow rack allowing 2 x Low Level bags or 1 x Low Level and 1 x Compact Barrow Bag to be attached and supplied with a Voyager Under Barrow Bag
- Voyager Under Barrow Bag features hard base to prevent sagging, a removable shelf to allow Storage Bags to be separated and side access zips to allow the contents of the bag to be accessed without unloading the barrow
- Another feature of the Voyager Under Barrow Bag is a zipped external pocket that houses a waterproof rain cover, which is styled in the Fox Camo pattern
- Features extendable front barrow bag rack – this allows the Voyager or Camolite Compact Barrow Bags or Low Level Bags (all available separately) to sit right at the front of the barrow when using the barrow in 'session mode' and carrying a bedchair. However, when fishing day sessions without a bed, simply retract the front rack and turn the Barrow/Low Level Bags around so they face you. The design ensure the barrow remains balanced whether in short or long session mode
- Further features include robust, hi-tensile steel frame, quick-release wheel system with pneumatic tyre and swivelling mud feet with spiked bases
- Compact design and packs down very small for fitting in smallest of car boots
- Supplied with two Universal Barrow Straps that fit to barrow via looped attachments on frame
- Compatible with both the Voyager and Camolite luggage ranges

*RRP

CTR013 Explorer Deluxe Barrow £199.99

EXPLORER® BARROW

- Unique design makes it one of the most versatile carp barrows ever released
- Designed to allow anglers to fish 'off of the barrow' making it ideal for short-session anglers that like to move swims a lot
- Extendable front barrow bag rack – this allows the Camolite Barrow Bag (available separately) to sit right at the front of the barrow when using the barrow in 'session mode' and carrying a bedchair. When fishing days without a bed, simply retract the front rack and turn the Barrow Bag round so it faces you. The design ensure the barrow remains balanced whether in short or long session mode
- Ergonomically-shaped removable handles
- Robust, hi-tensile steel frame that is built to last
- Quick-release wheel system with pneumatic tyre
- Swivelling mud feet with spiked bases
- Compact design and packs down very small for fitting in smallest of car boots
- Supplied with two FX Universal Barrow Straps that fit to barrow via looped attachments on frame
- Supplied with camo storage bag that simply drops in to the centre of the frame, which can then be loaded with tackle items including Camolite Storage Bags that are available separately
- Camo storage bag has side access points so contents can be taken out without unloading barrow
- Supplied with two mesh storage pockets (with side access) that sit either side of wheel for storing water bottle etc
- Compatible with our Camolite luggage range

*RRP
