PRODUCT GUIDE

PACKED WITH OUR LATEST AND
GREATEST TACKLE!

SHELTERS

Our range of shelters must rank as one of the most comprehensive on the market, with all bases covered.

We take shelter design very seriously, and with our team of consultants across Europe, we've worked very hard to bring you the best offerings at great value-for-money prices.

Whether you're a long-session angler looking for a large bivvy that offers unrivalled comfort; a short-session angler looking for a lightweight, fast-erect shelter; or a general carp angler wanting an all-round shelter that covers a host of styles; you're sure to find something suitable in the coming pages. We have a number of new shelters this year, including the R-Series range of bivvies and brollies, plus our EOS bivvies that are perfect entry-level designs for those on tight budgets, but who, as ever, desire Fox quality. We've also retained some of our classics, such as the Ultra Brollies, Easy Shelters and Easy Domes.

You'll also find a range of accessories at the end of the section, such as lighting and cookware. In these two categories we have some exciting new additions, including a host of bivvy lights and some great stoves!

NEW

R SERIES 2-MAN XL

- Available in both Khaki or unique Fox Camo pattern
- Hydrostatic head rating of 10,000mm
- Features O-Ring connections in inside to add the inner dome for increased comfort
- XL refers to the additional space and headroom created by the extra-high frame
- Classic four-rib step-forward design featuring an oversized peak for extra protection
- Rigid 19mm Aluminum frame and full-frame support supplied
- Porch support poles feature unique, pivoting moulded clips for perfect secure connection to the main frame
- Adjustable tension straps
- Large front and rear mozzzy mesh panels
- Two-way letter box-style door with three door options, mozzzy mesh, clear PVC and solid
- Front can be rolled back to create an open fronted shelter
- Two rod straps located at front of shelter
- Heavy-duty groundsheet and pegs supplied in an oversized heavy-duty carry bag
- Made from hard-wearing, breathable polyester fabric

2-MAN XL OVERWRAP

- Available in both Khaki or unique Fox Camo pattern
- Hydrostatic head rating of 10,000mm
- Designed to allow the user to create a twin skin on their R-Series 2-Man bivvy
- Increases warmth in the winter and helps to keep you cooler in the summer
- Vastly aids the reduction of condensation
- Creates additional storage space for items such as waders, bait etc.
- Large front and rear mozzzy mesh panels
- Comes supplied with additional frame supports and storm poles with pivoting clips for perfect secure connection to the main frame
- Two-way letter box style door with three door options, mozzzy mesh, clear PVC and solid
- Front can be rolled back to create an open fronted shelter
- Two rod straps located at front of shelter
- Made from hard-wearing, breathable polyester fabric
- Weight – 5kg

2-MAN XL INNER DOME

- Can be added to an R-Series 2-Man bivvy to create extra comfort, warmth and protection from insects and other annoying creatures
- Mesh inner dome features zip in/out groundsheet
- Can be packed away whilst attached to the bivvy with the groundsheet removed
- Main Fabric 100% polyester
- Weight – 2.5kg

FEATURES

Mozzzy mesh rear vents for added airflow

Clear PVC door option supplied

Inner dome available separately

Inner dome features zip-in groundsheet

Mozzzy mesh door and windows

RETREAT+ 1-MAN & 2-MAN

- Quite possibly the most feature-packed pram-hood bivvy ever made!
- 20,000 hydrostatic head Ven-Tec Rip Stop material
- Rigid, lightweight aluminium poles
- Flat back combined with improved side angles gives maximum space both front to back and also side to side
- Break in the pole structure, increases internal space yet makes the bivvy more compact once packed away
- Fully-removable front
- Three door options supplied: Solid, Clear PVC and Mozy Mesh
- Two-way zips on all doors for barn-style opening
- Front peak for added protection from elements
- Mozy mesh window panels at front
- Rear and side mozy mesh vents for increased air flow
- Adjustable tension straps on side
- Two rod support straps on peak
- Mesh inner dome for added comfort available separately or can be purchased as part of a bivvy & dome package
- Mesh inner dome features zip-in groundsheet
- Can be packed away with mesh dome attached as long as groundsheet is zipped out
- Supplied with full-frame support, heavy-duty pegs, heavy-duty clip-in groundsheet and an oversized carry bag
- 2-Man bivvy also includes side support poles for peak and storm straps
- Extending wrap available separately
- Available in 1-Man and 2-Man options

EXTENDING WRAP

- 20,000 hydrostatic head Ven-Tec Rip Stop material
- Same three door options supplied as on bivvy: Solid, Clear PVC and Mozy Mesh
- Mozy mesh vents on rear and side mirror those on bivvy for added airflow when wrap is on
- Fully-removable front
- Creates twin skin effect to reduce condensation, give added warmth in winter and help keep you cool in summer
- Two rod support straps
- Increase overall footprint of bivvy by extending front
- Supplied with additional groundsheet extension
- Available in 1-Man and 2-Man options

 **EASY SHELTER**

EASY SHELTER

- Unique pop-up frame design for rapid erection and very fast pack away
 - Perfect shelter for short-session angler who wants something that is light and compact to carry
 - Ideal for tight swims where a traditional brolly or bivvy wouldn't fit
 - Hard wearing Polyester fabric (2000mm hydrostatic head rating)
 - Styled in unique Fox Camo pattern
 - Can fit inside a bedchair when packed away for easy transportation
 - Front peak gives protection from rain when door is open
 - Can be pegged to the ground for maximum stability making it ideal for use as a day session shelter when not carrying a bedchair
- Solid front option features three vertical toggle fixings to allow you to roll the panel up in sections and peg out further to give increased coverage when in use
 - Supplied with zip-in mozzie mesh front panel
 - Large mozzie mesh panel at rear to aid air flow
 - Both front panels feature letter box style door
 - Designed to fit most standard sized bedchairs
 - Rod straps either side of the door
 - Supplied with three support ribs and heavy-duty pegs

FEATURES

Zip-in heavy-duty groundsheet

Clear PVC front panel option

Mozyzy mesh front panel option

60INS BROLLY

- A simple 60ins broly design, which features a removable central pole
- The pole can be positioned Nu-broly style and used with or without storm poles - this means the central pole can be removed and repositioned parallel to the back of the broly. The pole can then be pushed into the ground to offer coverage without the pole being in the way
- Two storm caps are included for optional use of storm poles (not included)
- Hardwearing Khaki-coloured polyester fabric (2000mm hydrostatic head)
- Perfect for short day sessions or for extra cover when entertaining visitors

CUM216 60" Broly *RRP
£74.99

- Dimensions of internal floor space
- Dimensions including wrap (available separately)

Can also be positioned NU-broly style

Rear pegging points

ULTRA 60 BROLLY

- Available in either Khaki or Fox Camo
- Features Ventec Rip Stop fabric with a 20,000mm hydrostatic head
- Features a full zip on the front to allow an optional Ultra Brolly Full Front or Ultra Brolly Camo Mozzy Screen to be added at a later date
- Supplied with removable internal vapour shield to help reduce condensation and aid comfort (vapour shield can be left attached when packed away)
- Features button-release STS-equipped mechanism, which allows for maximum headroom
- 60ins (152cm) design with 8mm Fibreglass frame for incredible stability
- Four back ribs touch the ground for added stability
- Extended side skirts provide extra protection from the elements
- Rear mozzy mesh vents for added airflow
- Front drain pipe diverts rainwater
- Other features include: rod retaining straps, multiple pegging points for adjustable brolly height, compression bell cap with rubber gasket seal
- Short threaded centre pole for ease and speed when erecting
- Four storm caps (supplied with two 24ins side storm poles)
- Protective caps to secure the side storm poles when folded into the brolly once packed away
- Also supplied with: full-size heavy-duty groundsheet, heavy-duty pegs and heavy-duty carry bag with full-length zip
- Main outer fabric: 100% Polyester

CAMO MOZZY SCREEN

- Unique Fox Camo styling
- Full-length integrated zip, which attaches to an open-front Ultra Brolly or Ultra Brolly Camo
- Two-way zips on door to create letter box opening
- Elasticated toggle attachments for front storm poles
- Main outer fabric: 100% Polyester

BEDCHAIRS, CHAIRS & SLEEPING BAGS

Bedchairs, chairs and sleeping bags won't catch more fish right? Well, we don't think it's that simple. Let us explain...

Here at Fox we believe motivation is one of the key drivers of success in carp fishing. If you look at the very best carp anglers across Europe, they all share one thing in common: they're extremely motivated and put 100% effort into everything they do. We believe bankside comfort plays a huge part in an angler's motivation... if you sleep well and are relaxed, then you'll enjoy your time on the bank, have increased energy levels and will be able to track down those fish.

Over the coming pages you'll find several established classics, such as the multi-award-winning Flatliner and Flatlitter MK2 bedchairs, the immensely popular Super Deluxe Recliner chair, the market-leading Warrior 2 chair range, as well as quality sleeping bags like the VR and ERS. Additionally, we've some new offerings, including two new models of Duralite chair, a larger version of our top-selling Warrior sleeping bag and two VRS Camo sleeping bag covers...

FEATURES

FX FLATLINER® BEDCHAIR

- The 'Flip-Cam System', is a very special piece of innovation. All other bedchairs, once unfolded, have the cams pointing upwards and as we all know, they are a real inconvenience. Not only do they get in the way, they also reduce the width of the mattress that you can actually utilize. This, however, is now a thing of the past as the cam on the Flatliner swivels 180 degrees so that it points downwards
- 'Twist-Lok' legs, which can be operated with one hand. Simply twist the mechanism on the leg and the foot will fall into position. Then let go of the mechanism and it will automatically lock the leg into position – it couldn't be easier!
- The Flatliner features a unique 'Double Hinge Bracket' on the foot-end that has been designed to create a void inside the bedchair when it is folded away. This therefore allows enough space for a standard-sized 3-season sleeping bag to be folded inside. Some other bedchairs achieve this by putting an angle in the actual frame at the head end, which severely hinders your sleeping position and comfort as you cannot lie flat!
- 'Even Flow' elastic has several benefits. Most other bedchairs use at least four lengths of elastic, whereas the Flatliner uses only two, which start and finish at the head and foot ends and also run through the Cam (unlike any other bedchair on the market). This means that there are no sections of the mattress that are not elasticated, giving a much more consistent tension and firmer feel to the mattress

- Mattress utilizes eyelets instead of unnecessary fabric loops. Eyelets allow the elastic to stretch when you sit on the bedchair and then retract when you get off it. In addition the eyelets have been very carefully positioned around the perimeter of the mattress to ensure maximum support is achieved. They are positioned as close as they can be to the legs to ensure an even tension on the mattress
- The frame is constructed from an oval aluminium, which is not only incredibly strong, but also makes the frame surprisingly light
- High-density foam mattress that is fleece-covered and also a staggering 50mm deep!
- Three legged
- Six large mud feet
- Main outer fabric: 100% Polyester
Padding/Filling: 100% Polyurethane

	*RRP
CBC039	FX Flatliner Bedchair £329.99

Even Flow elastic on standard Flatliner gives more consistent tension to mattress

Twist-Lok Leg - simply twist the mechanism on the leg with one hand for instant and infinite adjustment

Double Hinge Bracket at the foot end. This creates a void when folded to store a standard 3 season bag

High-density foam mattress that is fleece-covered and also a staggering 50mm deep!

Further leg spacing prevents them from overlapping when the bedchair is packed away

REVOLUTIONARY FLATLINER 'FLIP-CAM SYSTEM'

Standard Flatliner
Min height: 40cm
Max height: 48cm

FLATLITER
BED AND BAG SYSTEM
MK2

FX FLATLITER® BED & BAG SYSTEM MK2

- Double Hinged Bracket at both head and foot end, eliminating need for cams
- Two side tension straps that go around frame rather than mattress make it possible to fold away more compactly with sleeping bag attached
- Velcro strips on underside of mattress for use with Aquos covers (can secure cover to bed on the side you don't need to exit to keep warmth in)
- High-density foam on mattress for greater comfort
- One-piece lumbar support on middle and head sections give a much firmer mattress and prevents sagging
- Unique leg design with single legs at both head and foot end for increased stability and reduced weight; this means you have only 6 legs rather than 8 but still have full support at both ends
- 'Twist Lok' mechanism for infinite leg adjustment as used on Flatliner bedchair
- Large mud feet
- Two sizes available: Standard and Compact
- Main outer fabric: 100% Polyester
Padding: 100% Polyurethane

SUPPLIED BAG FEATURES

- Bag attaches to bed via full-length zip around edge of mattress to allow greater movement when inside the bag
- Bag lining on bottom half is polyester (allows easy movement inside bag) and top half is fleece (aids warmth and comfort)
- Top-quality hollow fill used, which aids warmth and is also much softer, enabling bag to sculpt around your body
- Larger internal zip baffle to keep warmth in and cold out
- Sleeping bag is rated as a 3-4 season
- Heavy-duty 10mm snag-free, crash zips on sleeping bag
- 20% of the bags filling is below you and the other 80% is above you to prevent heat loss
- Main outer fabric: 100% Polyester
Filling: 100% Polyester, Lining: 100% Polyester
