# BITE INDICATION

Over the coming pages we'll be showcasing our full range of products associated with bite indication. These include not just our top-selling, multi-award-winning bite alarms, but also an array of indicators, such as our Swingers and bobbins. You'll find bite alarms to suit different budgets, along with our Black Label range of indicators that combine incredible looks with practical functionality.

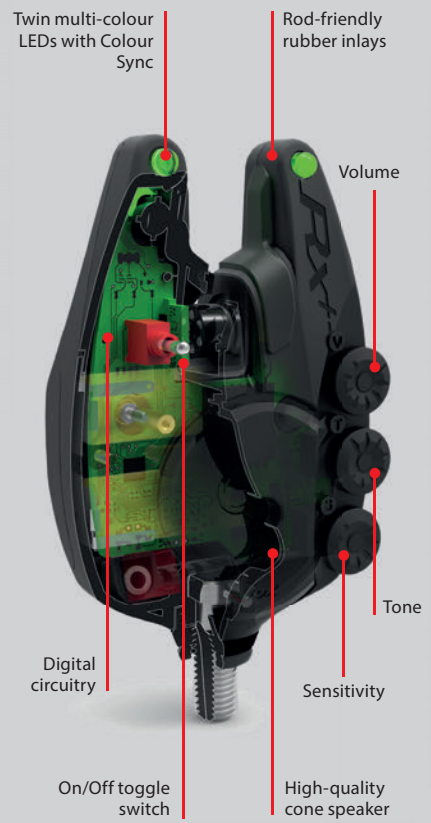

Last year we launched the RX+ bite alarms. The popularity of these alarms has been nothing short of mind-blowing. As a result, they remain in the range and will do so for many years to come. Such was the popularity and quality of the products showcased in this section of last year's catalogue, the only additions we've made are the incredibly sexy, new Black Label Mini Swingers, which have served to breathe new life into the classic Swinger design.

		*RRP
CEI160	Micron RX+ Receiver	£199.99

## BIVVY LIGHT FUNCTION

When the bivvy light feature is turned on via the switch on the back of the receiver, it will behave in the following ways:

- The indication lights on the receiver will be dimmed slightly to prevent the receiver emitting too much light whilst the bivvy light is active
- The bivvy light will only come on if three bite triggers are received in quick succession, to prevent liners and false indication turning your bivvy light on unnecessarily
- The bivvy light will fade into full brightness and remain on whilst the alarm continues to send trigger signals to the receiver. The light will fade out to nothing in the 5 seconds after the trigger lights have gone out on the receiver, as long as no more indications are received

Black Label bite indicators were designed to complement our market-leading Black Label bankware range and really do combine style with functionality.

One of the main benefits of the Black Label range is that you can purchase a set of bobbins for a relatively low price and then customise them to suit the angling situation you are faced with by utilising our Custom Indicator System (C.I.S).

NEW

## MINI SWINGER

- Based on the design of the iconic Fox Swinger MK3 but with a shorter arm (45mm less) and reduced head size (40% smaller)
- Also features a Black Label hockey stick thread attachment instead of traditional Swinger Plate making for less bulk and quick interchange with different Black Label indicators
- 16 gram sliding weight on arm
- Matt black anodised coating on arm and weight
- Fixed line gate system
- Rubber shock absorbers on bottom of the head
- Opaque finish on head
- Head features isotope slot (for use with the Black Label Micro Isotope)
- Great all-round indicator for fishing with slack, semi-slack and tight lines
- Especially good for eliminating false indications in windy conditions
- Available in 7 colours: Red, Orange, Green, Blue, Black, Purple and White

# ROD SUPPORT

Here at Fox, we don't make tackle for just one particular type of carp angler. We are a brand that tries our best to make products that appeal to anglers of all orientations. Whether you fish long sessions or short, lakes or rivers, small venues or large, target the biggest of carp or simply enjoy getting bites, our vast array of products will cover your needs. One area where this philosophy shines through is our rod support portfolio. The range covers a wide variety of angling situations, ensuring that whatever your preferred approach, you're sure to find the perfect product.

In the coming pages you'll not only find a variety of rod pod designs that cover small venues right up to the largest, most extreme waters, but also banksticks and buzz bars. In addition, we also offer accessories such as back rests, snag ears and stabilisers to ensure the complete package is available.
